Well I have to admit to a real stupid error I recently made. See following page for how to go from this to that. I feel prey to the 72Mhz 2.4 Ghz intermix. I just forgot to extend my 72 Mhz antenna . It is interesting how easy it is to forget once you fly 2.4 so often. (Joshua Redsun's photos) The Twin is still alive though.

See you at the field SOON
